

**Monroe County Richard and Annette Bloch Cancer Foundation
Cancer Survivors Park in Highland Park
Request for Proposal - Addendum - Questions & Answers**

May 24, 2006

- Question #1:* Can the final RFP submission deadline be extended ?
Answer: **Yes. The RFP submission deadline identified in Section 1.5 Time Line of the RFP has been changed to 3:00 PM EST on Monday, June 19, 2006.**
- Question #2:* What do the plaques say ? and how big are they ?
Answer: Refer to the Bloch Foundation website at www.blochcancer.org for additional information regarding the content of the plaques. The plaques for the "Positive Mental Attitude Walk" design element of the park (see Question #10 below for additional information) measure approximately 10" by 10" square, with the exception of 3 plaques that measure approximately 18" by 13". The plaques for the "Road to Recovery" area (see Question #10 below) measure approximately 11½" by 9".
- Question #3:* Can we incorporate additional sculptures in the design of the park ?
Answer: Yes. Refer to the Bloch Foundation website at www.blochcancer.org for additional information including descriptions and photographs of other Cancer Survivor Parks.
- Question #4:* Is the Highland Park Elevation Survey available in AutoCAD format ?
Answer: Yes. The original ArcView GIS file has been converted into an AutoCAD file and is available upon request.
- Question #5:* Will the County be using its standard Professional Services (A/E) Agreement and front-end boilerplate Contract Documents on the project ?
Answer: Yes, as noted in the RFP.
- Question #6:* Will the County post a list of who submitted questions on the RFP ?
Answer: No.
- Question #7:* Will the project site extend to the Highland Avenue right-of-way ?
Answer: Yes.
- Question #8:* Who will be judging the proposals ?
Answer: Selected personnel from Monroe County and other designated organizations will form the Selection committee.
- Question #9:* Will Site Sections (drawings) be allowed in place of Site Elevations ?
Answer: Yes.
- Question #10:* Will the sculpture of the eight life-size figures passing through a maze be used in the design and what utility provisions should be made for the sculpture if necessary ?
Answer: Yes. The "Cancer ... there's hope" sculpture by the late world renowned sculptor, Victor Salmones is one of three fundamental elements required for the design. The sculpture should serve as the primary focal point of the design. Additionally, the design must include a "Positive Mental Attitude Walk" consisting of 14 bronze plaques and a "Road to Recovery" area consisting of an additional 7 bronze plaques. The Bloch Foundation will provide the sculpture and plaques to the winning design. Provisions should be made for lighting, water, and any other utility services necessary to enhance the required elements as part of the proposed design. Refer to the Bloch Foundation website at www.blochcancer.org for additional information.
